

ACTION SHEET 1

Pursuant to PROJECT ANNEX 3

of the Implementing Arrangement between the United States and Argentina for technical exchange and cooperation in the area of peaceful uses of nuclear energy

COOPERATION IN THE FIELD OF DECONTAMINATION AND DECOMMISSIONING OF NUCLEAR FACILITIES

Based on the scope and objectives define in Project Annex 3 and the discussions between Argonne and CNEA, the parties have agreed to pursue the following tasks, subject to the availability of funds:

1. Argonne will prepare and conduct a training course on Decontamination and Decommissioning of nuclear facilities for 5 to 8 participants from Argentina to be selected by CNEA.
 - This course will cover decommissioning planning, including selection of a strategy and the development of a decommissioning plan, decontamination and dismantling technologies, waste management aspects, and decommissioning cost estimating and financing. Besides technological aspects, the course will include safety and radiation protection issues of decommissioning as well as case studies of ANL experiences.
 - The duration of the course will be one week, to be scheduled in August or September of 1998.
